Postmaster Campbell has received a lot of the Garfield five-cent stamps. The picture of the martyred president on this stamp is said to be the most likeness of him in existence. If people desire to see how Garfield looked in life, they have a chance to purchase for a few cents what is considered far superior than many a steel engraving of the dead president.

Monday was a regular, old-fashioned dusty day, and every other man you met was disgusted and prone to say "demit." The loveliness of our climate is not up to the mark on such a day—save that part of it which is elevated by the stormy wind-blown. But in a day or so following, the disenchanted one becomes enchanted with the real thing in that Italian weather we read of.

These cresses were planted in the water of a stream and at a spring on his farm north of town. On Sunday evening a grand illumination was given by the "management" of the Northern Lights—a fireworks company of large proportions. The whole northern sky was streaked and striped with gorgeous colors—a rare sight in this latitude. Mr. Samuel Jones, who has visited the Hudson Bay country, says he has seen nothing like it since he left that region. It was something seldom seen except in the high northern latitudes.

We received the other day a letter from Rev. Wm. Smith, which contained the following glad news concerning his health:
My health has steadily improved since my arrival. The water of the springs have wrought well for me thus far at least. I am beginning to look like myself once more. Friends here tell me there is a wonderful change in my appearance. Judging from the effects thus far produced, I see no reason to doubt a permanent cure in due time.

It would seem from the following item published in the Chicago *Iner-Ocean* that Lord, the well-known actor, is "on top" again:
Mr. J. A. Lord yesterday effected a settlement of the civil suit brought against him by the Madison Square Theatre, through the aid of the very dangerous character of the drama of the theatrical profession, came to this immediately on learning of Mr. Lord's return and expressed willingness to make any equitable arrangement that might be agreed upon with him. He informed Mr. Lord of the amount of time he had spent in the suit, and that he agreed that \$10,000 would represent a fair royalty on the number of representations.

The Topeka Capital says that the Leavenworth, Topeka & Southwestern re-commenced track laying in Union Township, Jefferson County, on Friday, and expect to be through that township—a distance of five miles, in ten days. All grading to Topeka is finished, except a mile and a half of heavy cutting between Okauchee and Oswego and most of the cuttings are in. Preparations are all made to commence grading this side of Topeka as soon as the track gets to the latter place.

One portion of the Supreme Court decision in the *Troop* case, with regard to the responsibility of the city and city officers in protecting city ways, should be cut out and filed away. It reads as follows:
In an action against a city for damages alleged to have been caused by the negligence of the city in permitting and allowing a hole to be dug and created within the city property belonging to one of the sidewalks of one of the principal streets of the city, and in permitting such hole to be left open and unguarded and without any railing, plank, or other device to prevent persons from falling into the hole and being injured; that the hole was dug and created by a contractor employed by the city, and that the city was negligent in not seeing that the hole was properly guarded and protected, and that the city was liable for the damages caused by the fall of the plaintiff into the hole, although it may not be shown that the city was negligent in not seeing that the hole was properly guarded and protected, and that the city was liable for the damages caused by the fall of the plaintiff into the hole.

The new city council held its first regular monthly meeting last Monday night. The monthly report of the city treasurer was read and filed, which contained the following figures:
March 22, balance in hands of treasurer \$219.09
March 23, by 19 city warrants paid \$209.10
April 10, by amount in hands of treasurer \$102.20

A petition for a sidewalk on the west side of seventh street from north-east corner of lot 120 to Iron Avenue, was referred to the sidewalk committee, and by them recommended that the prayer of the petitioners be granted. Ordinance No. 352, relating to licenses, was amended, as will be seen in the new ordinance published and clothed in some other old ordinances in his neighborhood; from which he argues that the yield of apples will be light this year.

Mrs. Milam returned home Thursday evening from Lindsay, accompanied by her daughter, Mrs. A. Wilbur.

We are indebted to the obliging clerk of the district court for a list of court cases published on the first page of this paper.

Wm. Tinkler, of Gypsum, says the season so far is similar to that of 1875, and in that year his wheat averaged thirty-two bushels to the acre.

Again we publish a portion of our editorial matter on the first page of this paper. We like the arrangement so well that we may continue the practice in the future.

Jesse Frost has returned to Salina. He has no use for Colorado. If he could only get his hat back which was stolen out there, he would give a clean, full receipt to that country.

Will the party who gave us the name of W. A. Duncan, Dow City, Iowa, as a subscriber, please call at or communicate with this office, as there are some differences to be settled.

T. J. Ross and C. F. King were discharged yesterday from the county jail. Ross worked out thirty-two days of his fine, and paid the balance due the county in cash. King was a prisoner from McPherson.

A gorgeously colored panorama of strange beasts and birds, of men and women not much more elaborately dressed than Adam and Eve, of human forms bent and tortured like limbs of darkness, and numerous other objects which cannot be mentioned here, is stretched out from the New York Store corner nearly to the river. This is a free show and well patronized.

Mr. Bonebrake, of Abilene, was in town yesterday, for the purpose of making some arrangements about the water works. He states that the building will be put up first of all, and that work will be commenced on the same in about a month from now. The machinery cannot possibly be obtained before August, and he will not general construction of the work will be undertaken until the machinery arrives.

One of the institutions of Salina in which all those who are lovers of plants and flowers, should take special pride is the floral conservatory of John Buchi, East Salina. He now has the best establishment of the kind west of Topeka. His trade is no longer confined to the local demand, but comes from neighboring towns as well.

"During the season" hardly a day passes that he does not receive a foreign order for plants. Mr. Buchi has by enterprise, labor and economy, built up in our midst something which strangers who come to Salina are always pleased to visit, and from which they go away with the most pleasant recollections, to recount them to their friends. While outsiders seem to fully appreciate the beauty, completeness and advantages of such an institution, we hope those whose hearts will do their part in patronizing and encouraging it. One glance alone through the conservatory must impress a person with the great variety of plants, flowers and shrubs.

The Women's Home and Foreign Missionary Society acknowledge the high honor conferred upon them, as the medium through which Mrs. Christina Phillips generously donated the sum of fifty dollars with the request that it be sent to the Mora Mission Field, New Mexico, to aid in furnishing a chapel there. The meetings of this society are held the first Friday of each month, they are well sustained and full of encouragement. We earnestly desire that many more may co-operate with us in this important part of our church work.

Mrs. JULIA PIENKE, Sec.

J. V. Nelson and family arrived here from Colorado some two weeks ago. His intentions are to make it hot for Mr. Nordstrom about his home-land. Although Nordstrom has been living on the land for five years, we hope he will give up the prospect, as section 10 always was a hard piece of property to live on for business. Go and refresh yourselves.
